## Preserving a Mid Island Treasure

SILT – Protecting land on Savary Island since 1997

Happy Holidays!

### Help Keep Savary Green Donate to the Johnson Forest

We are almost half way to reaching our goal!

SILT is a non profit registered charity. Donations are tax deductible.

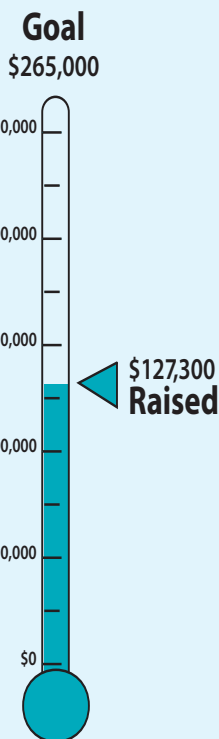

Make a donation as a gift to your family members and friends.

Each \$50 donation buys 1 square meter of the Johnson Forest. The perfect holiday, birthday, anniversary or memorial gift, that will keep giving into the future and beyond.

### Help Keep Savary Green - Donate to the Johnson Forest

The Johnson Forest is a 2.5 acre parcel of land near Mermaid Rock and the Sand Trail at Henderson Rd. (Mid Island). This ocean-view forest is home to Red Cedar, Douglas Fir, Arbutus, Western White Pine and Shore Pine.

The Johnson Family owns the 8 undeveloped lots valued at \$465,000 that make up the forest. The family has very generously offered to donate 4 of the 8 lots, valued at \$200,000 to SILT. We needed to raise another \$265,000 and are now almost half way to reaching our goal!

SILT was thrilled to kick off the campaign with a very generous pledge for \$100,000. More pledges, donations and contributions from our fundraiser, Savarystock have boosted our total to \$127,300. We still need to raise \$137,700 to preserve this land. Your gift will help protect greenspace on Savary and make the Island a better place to be now and forever.

The Johnson Forest will add another 2.5 acres of protected forestland to Savary's protected areas.

With over 1750 parcels, Savary has the highest density of any of the Islands in the Salish Sea.

Each parcel protected on the Island helps to undo Savary's legacy of over subdivision.
